## Search Photos

Tags to Search against

Tags the user wants to search against

Date Range

2/3/1992

To

3/2/2002

Allows users to pick a date from which the photos are from. Either (or both) could be left blank and no limit will be assumed.

Search

Searches all the users photos based on the criteria. Atleast one search criteria must be provided for the search to occur

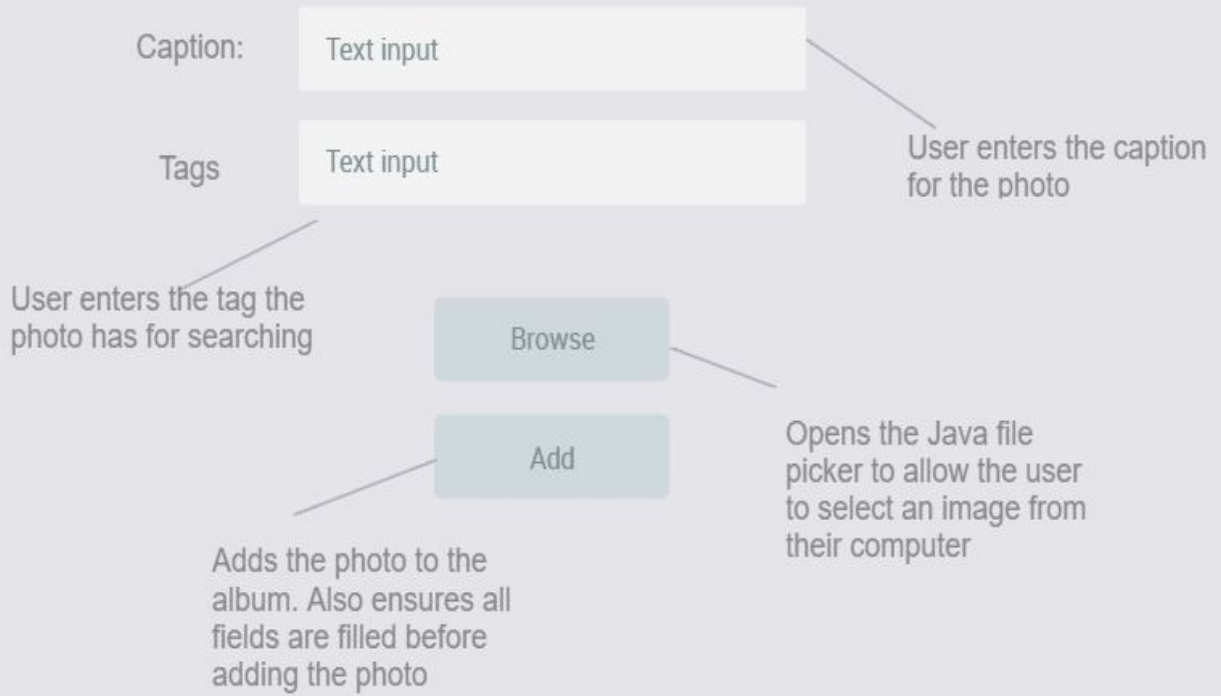

Search Results:

Move Results into an Album

Moves all the results into one Album with some > name (user can rename later). Atleast one result must be shown for this to work

	<div>Caption</div> <div>Taken:Date</div> <div>Tags:tag1,tag2</div>	
	<div>Caption</div> <div>Taken:Date</div> <div>Tags:tag1,tag2</div>	>
	<div>Caption</div> <div>Taken:Date</div> <div>Tags:tag1,tag2</div>	<div>All the search results displayed in a list.</div> <div>&gt;</div>

## Add Photos Page

## Edit Photos Page

The diagram illustrates the 'Edit Photos Page' form. It features a light gray background. On the left, the labels 'Caption:' and 'Tags' are positioned to the left of their respective input fields. The 'Caption' field is a light yellow rectangle containing the text 'Caption'. The 'Tags' field is a light yellow rectangle containing the text 'Tags'. Below the 'Tags' field is a teal button labeled 'Edit'. Three annotations with lines pointing to the form elements are present: one pointing to the 'Caption' field with the text 'User edits the caption for the photo', one pointing to the 'Tags' field with the text 'User edits the tag the photo has for searching', and one pointing to the 'Edit' button with the text 'Edits the photo to the album. Also ensures all fields are filled before adding the photo'.

Caption:

Tags

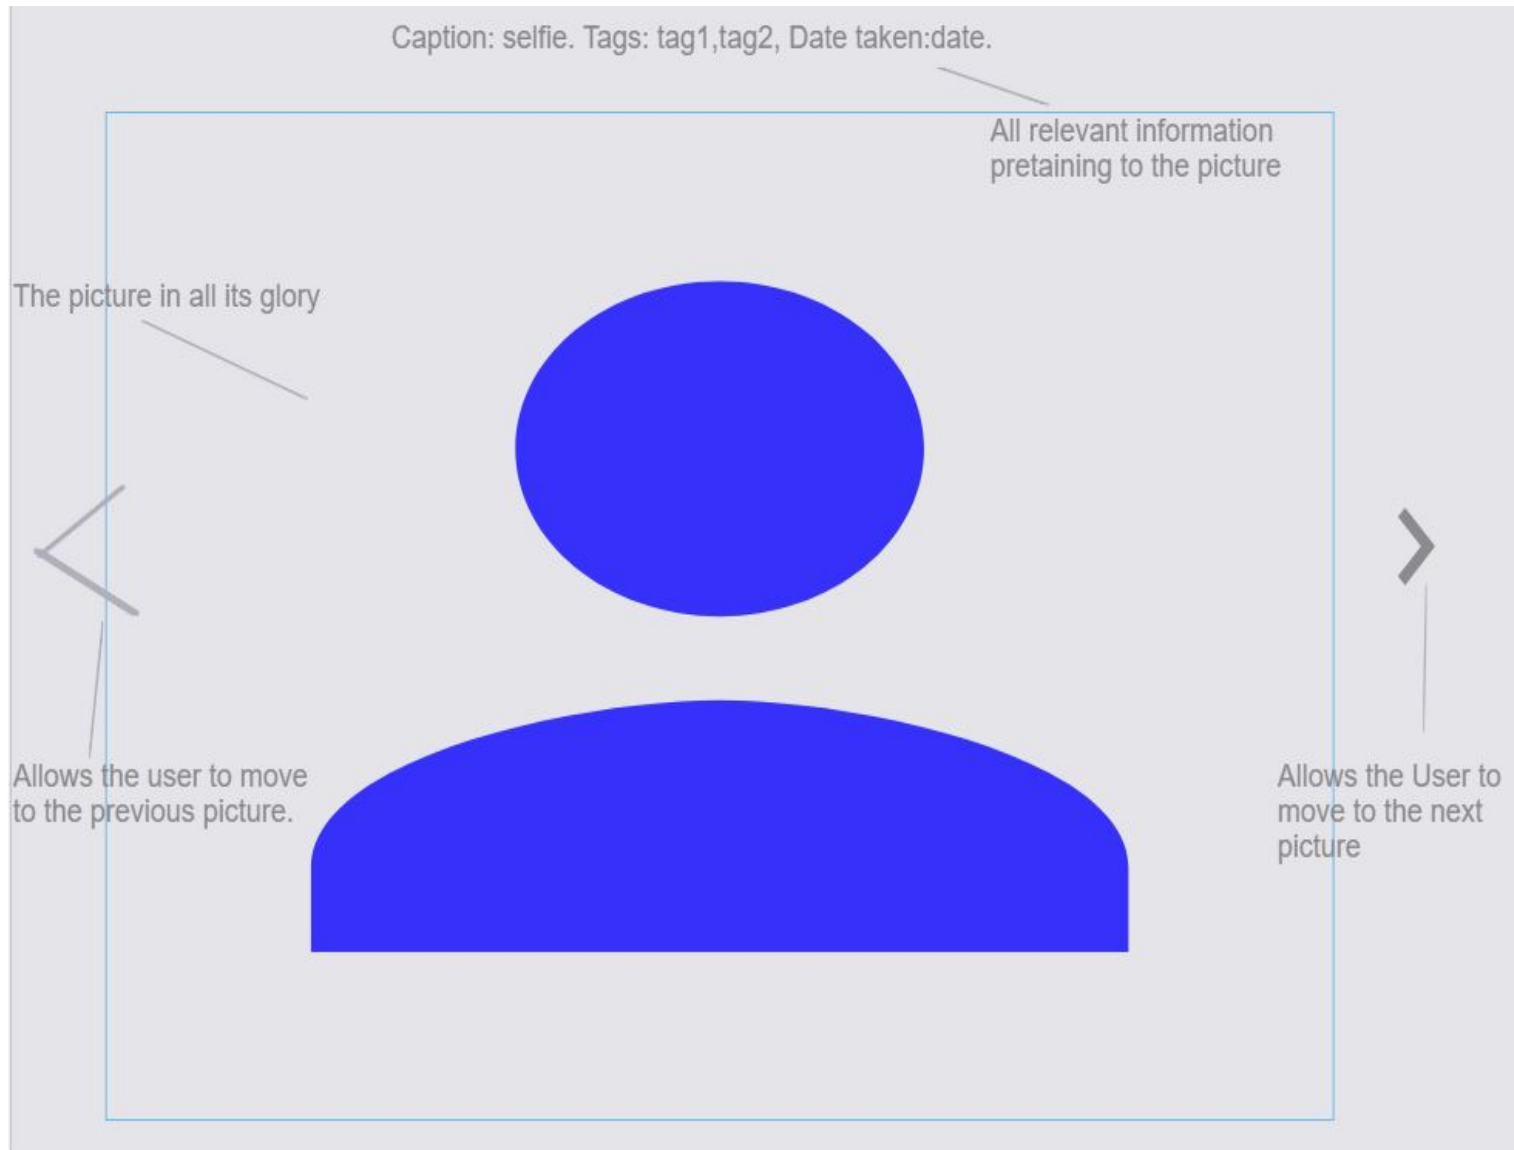

User edits the caption for the photo

User edits the tag the photo has for searching

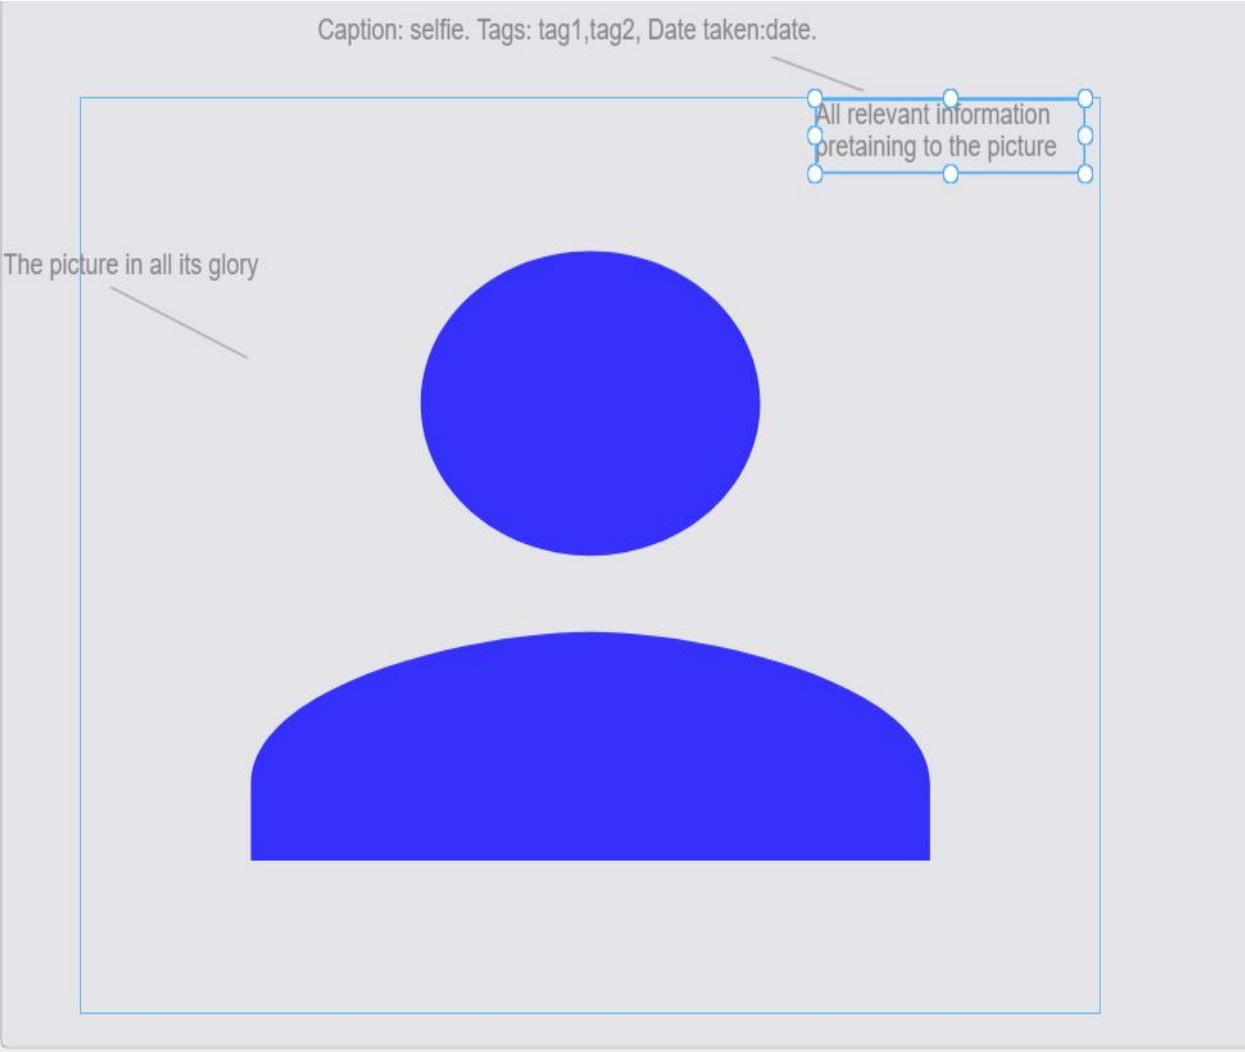

Edits the photo to the album. Also ensures all fields are filled before adding the photo

# Enlarged Photo Page

## Moving Photos Page

A select able list of all albums the user has (except for the one the picture already belongs to).

Select the album you want the photo moved to:

- Album1 >
- Album2 >
- Album3 >
- Album4 >

☒ This options ensures that the original album still has the picture after the photo is moved

☐ Just copy the Photo

☐ Move the photo and remove from the original album

The option ensures that the picture is removed from the original album when moved to the new album

Performs the operation and close the window

Move
